

General Information (pertaining to inspection)			
Name of Project	HIGHWAY PR-9 FROM PR-132 TO PR-123	CGP Tracking No.	Inspection Date
Inspector Name, Title & Contact Information	CESAR SOTO		
Present Phase of Construction	PHASE I, AND II		
Inspection Location (if multiple inspections are required, specify location where this inspection is being conducted)	ENTERE SITE		
<p>Inspection Frequency (Note: you may be subject to different inspection frequencies in different areas of the site. Check all that apply.)</p> <p>Standard Frequency: <input checked="" type="checkbox"/> Weekly <input type="checkbox"/> Every 14 days and within 24 hours of a 0.25" rain</p> <p>Increased Frequency: <input type="checkbox"/> Every 7 days and within 24 hours of a 0.25" rain (for areas of sites discharging to sediment or nutrient-impaired waters or to waters designated as Tier 2, Tier 2.5, or Tier 3)</p>			
<p>Reduced Frequency:</p> <ul style="list-style-type: none"> - <input type="checkbox"/> Once per month (for stabilized areas) - <input type="checkbox"/> Once per month and within 24 hours of a 0.25" rain (for arid, semi-arid, or drought-stricken areas during seasonally dry periods or during drought) - <input type="checkbox"/> Once per month (for frozen conditions where earth-disturbing activities are being conducted) 			
<p>Was this inspection triggered by a 0.25" storm event? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, how did you determine whether a 0.25" storm event has occurred? <input checked="" type="checkbox"/> Rain gauge on site <input type="checkbox"/> Weather station representative of site. Specify weather station source:</p>			
<p>Total rainfall amount that triggered the inspection (in inches): <u>0</u></p>			
<p>Unsafe Conditions for Inspection</p> <p>Did you determine that any portion of your site was unsafe for inspection per CGP Part 4.1.5? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If "yes", complete the following: - Describe the conditions that prevented you from conducting the inspection in this location:</p> <p>- Location(s) where conditions were found:</p>			

Condition and Effectiveness of Erosion and Sediment (E&S) Controls (CCP Item 2.1)

9. PR-9, PR-123				

***Note:** The permit differentiates between conditions requiring repairs and maintenance, and those requiring corrective action. The permit requires maintenance in order to keep controls in effective operating condition and requires repairs if controls are not operating as intended. Corrective actions are triggered only for specific, more serious conditions, which include: 1) A required stormwater control was never installed, was installed incorrectly, or not in accordance with the requirements in Part 2 and/or 3; 2) You become aware that the stormwater controls you have installed and are maintaining are not effective enough for the discharge to meet applicable water quality standards or applicable requirements in Part 3.1; 3) One of the prohibited discharges in Part 2.3.1 is occurring or has occurred; or 4) PA requires corrective actions as a result of a permit violation found during an inspection carried out under Part 4.2. If a condition on your site requires a corrective action, you must also fill out a corrective action form found at www.dca.gov/mcds/stormwater/swpp. See Part 5 of the permit for more information.

Instructions for Filling Out the "Erosion and Sediment Control" Table

Type and Location of E&S Controls

Provide a list of all erosion and sediment (E&S) controls that your SWPPP indicates will be installed and implemented at your site. This list must include at a minimum all E&S controls required by CGP Part 2.1.2.1. Include also any natural buffers established under CGP Part 2.1.2.1. Buffer requirements apply if your project's earth-& turfing activities will occur within 50 feet of a surface water. You may group your E&S controls on your form if you have several of the same type of controls (e.g., your "Soil" group "Inlet Protection Measures", "Perimeter Controls", and "Stockpile Controls" together on one line), but if there are any problems with a specific control, you must

* Note: The permit differentiates between conditions requiring repairs and maintenance, and those requiring corrective action. The permit requires maintenance in order to keep controls in effective operating condition and requires repairs if controls are not operating as intended. Corrective actions are triggered only for specific, more serious conditions, which include: 1) A required stormwater control was never installed, was installed incorrectly, or not in accordance with the requirements in Part 2 and/or 3; 2) You become aware that the stormwater controls you have installed and are maintaining are not effective enough for the discharge to meet applicable water quality standards or applicable requirements in Part 3.1; 3) One of the prohibited discharges in Part 2.3.1 is occurring or has occurred; or 4) EPA requires corrective actions as a result of a permit violation found during an inspection carried out under Part 4.2. If a condition on your site requires a corrective action, you must also fill out a corrective action form found at www.epa.gov/nepdes/stormwater/swD90. See Part 5 of the permit for more information.

Stabilization of Exposed Soil (CGP Part 2.2)

see reverse for instructions)

Dose-response Relationships

Inspect any part of your site at the time of the inspection.
